WEDNESDAY, APRIL 19
AIR & ATMOSPHERE DAY

GreenDC  **Week**
Think Green DC! **April 17-23, 2006**

The quality of the District's air is important because it affects the quality of health and life in general for the population. Exhibits and activities will encourage participants to reduce their use of resources that contribute to regional air pollution and global climate change.

Lecture:

Professor Chris Palmer,
Director, Center for Environmental Filmmaking
Highlights of his award-winning environmental films
American University, Wechsler Theatre
Mary Gordon Center, 3rd floor, 7:00 pm

Partners: American University, DC Energy Office, District Department of Transportation, American Lung Association
